

Ritual Haircut

ABOUT RITUAL HAIRCUT

Hair is a cosmic antenna that connects us to the Universe, capable of protecting us, helping in the process of awakening, and developing our intuition.

It is not by chance that in ancient times, warriors and matriarchs wore their hair long. There is a whole symbolic value behind them that I find interesting to rescue.

It is also in them that we carry memories that are part of our evolutionary journey and that deserve to be released, when it becomes necessary to close cycles and open up to a new and integrated version of ourselves.

The work of a hairdresser, as a rule, is quite similar to that of a therapist.

Ever since I started on this journey, I have found myself listening to the difficult processes, of so many people who have passed through my hands.

In my healing process, I have felt the call to implement some therapies and knowledge from courses I take and books I read, into my haircuts.

It makes sense to me to do it this way, and I decided to create inner/outer beauty rituals.

When we develop self-love, that love is reflected on the outside and in the way we look, feel, and position ourselves in the world.

Love and Gratitude
Mafalda Amor

ABOUT ME

I am a loving woman who believes in the power of love and dares to spread it wherever I go. I find purpose in serving others and helping to make the world a better place. My faith and belief in the divine guide me on this journey and help me find hope even in the most challenging situations. I believe that my passage through life is a constant learning process and I am always looking for new ways to develop and evolve so that I can contribute in a positive way to the world.

I am also a mother, an artist, and human.
